

Dear Mr. Doe,

We wish you a good start and much success in 2011.

This year remains groundbreaking. New Hilscher products are waiting to be introduced at numerous international exhibitions. Make a note of the next trade shows worldwide for a personal demonstration. We look forward to seeing you there.

## netLINK PROXY – PROFIBUS to PROFINET pluggable converter

netLINK PROXY converts any PROFIBUS-DP Slave in minutes into a PROFINET compliant device. As an ordinary fieldbus plug it is connected to the DP interface. The Ethernet jack connects first with the configuration PC and then with the PROFINET controller.

- Provides **immediate PROFINET access** to Slave devices with PROFIBUS interface
- **Saves development time** of own PROFINET connection as ready-to-use solution
- Is the **cost-effective and complete alternative** to a device re-design

**Video-tutorial:** Commissioning in 4 steps, [download as ZIP-file](#)

**Use case:** Delivery capability despite PROFIBUS connection, [application note as PDF](#)

Are you interested in your own PROFINET design as well?

Whether as a module-based PROFINET integration or as a chip-based design, Hilscher offers for any type of application a solution. For more information about PROFINET products please visit the Hilscher website: <http://www.hilscher.com/technologies.html>

## Kick-Off Meeting - Reference Implementation PROFIdrive Profile

Are you an expert in the drive industry and your drive does not support the PROFIdrive profile yet? Then take part in the kick-off meeting "reference implementation PROFIdrive profile" on **27<sup>th</sup> January 2011 at Hilscher in Hattersheim (Germany)**. With your expertise and in consultation with the PROFIdrive working group of the PNO we want to further develop our reference solution of the PROFIdrive profile. Afterwards this will be available to you in source code free of charge. 20 companies from the drive industry are already participating. Due to the positive response, only a few seats are left! For free registration and further information please visit:

<http://www.industrialnetwork.com/profdrive-profile>

With best wishes for the new year,

**Hilscher Gesellschaft für Systemautomation mbH**

[See more information about the netLINK PROXY and the PROFIdrive kick-off meeting on the Internet.](#)

**Hilscher Product Portfolio:**

PC cards, OEM modules, Gateways, ASICs, as well as engineering services  
e.g. FDT/DTM development service, netX design in & production service.
